### TIPS

Mouse over trading symbols on the chart to see the detailed insider trading information for each insider trade. Different symbol represents different kind of insider identity which helps to judge the significance of the trade signal.

### What Does this Mean to You?

Insiders are privy to information the rest of us are not. That is why insiders in Plug Power (PLUG) consistently make more money when trading their own company's stock than the average investor. If you haven't done so already, watch our online insider trading course to see how you can profit from this information. Click here for Part One.

The above chart shows the most significant recent insider trading activity within Plug Power (PLUG). You can mouse over each marker on the chart to see what it represents.

## Report Part 2:
